

Rückseite

The diagram shows a symmetrical, two-lobed structure. Each lobe is roughly circular but has a flattened center where they meet. A solid magenta line outlines the outer boundary of the entire shape. Inside each lobe, a dashed blue line follows the inner contour. A vertical blue line runs through the center of each lobe, with a small horizontal crossbar. The word 'Rückseite' is written in blue text in the upper part of the left lobe, and 'Vorderseite' is written in blue text in the upper part of the right lobe. The word 'Mitte' is written in blue text below the vertical line in each lobe. A vertical dashed blue line runs through the center of the connecting neck, and horizontal dashed blue lines connect the inner contours of the lobes to this central vertical line.
